# TINTE PER INTERNI

## EMOZIONI CROMATICHE

L'uomo vive immerso nei colori, che influenzano il nostro stato psichico e ogni azione.

Max Luscher, psicologo svizzero, sosteneva che i colori hanno effetti terapeutici.

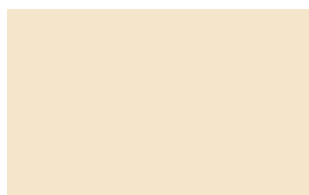

**Alcas Italia** offre una vasta gamma di colori selezionati secondo la scienza ergonomica per riequilibrare il benessere psicofisico.

Human beings live immersed in colors, which influence our mental state and every action.

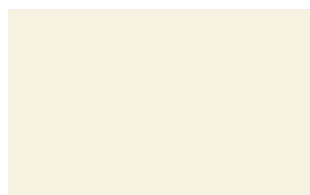

Max Luscher, a Swiss psychologist, claimed that colors have therapeutic effects.

**Alcas Italia** offers a wide range of colors selected according to ergonomic science to rebalance psychological and physical well-being.

## ALCAMUR

Scansiona il Qr code e scopri i dettagli del prodotto  
Scan the QR code and discover the product details

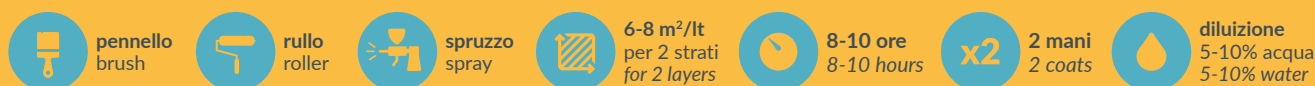

Smalto idrodiluibile antimuffa, per superfici murali, a base di resine acril-silossaniche, per applicazioni interne in ambienti ad elevata frequentazione. È caratterizzato da ottima copertura, buona dilatazione e adesione. Il film essiccato offre un'elevata resistenza ai lavaggi, alla formazione di macchie di sporco e di polvere. Speciali additivi, congiuntamente all'azione della componente silossanica che consente la permeabilità al vapore acqueo, garantiscono un'efficace azione igienizzante, preservando il film dall'azione di muffe ed alghe. Finitura ultrafine, ottima lavabilità e aspetto di pregio ne fanno il top di gamma per quanto riguarda i rivestimenti murali da interno. Richiesto in contesti dove l'aspetto delle pareti impreziosisce e valorizza l'arredamento.

\*Disponibile nella finitura satinata o opaca.

Water-dilutable anti-mould enamel paint, for mural surfaces, based on acrylic-siloxane resins, for indoor application in environments subject to high frequentation. It is characterized by excellent coverage, good substrate wetting and adhesion. The dried film offers high resistance to washing and to the formation of dirt and dust spots. Special additives, together with the action of the siloxane component that allows permeability to water vapour, guarantee an effective sanitizing action, preserving the film from the action of mould and algae. Ultra-fine finish, excellent resistance to washing and a prestigious appearance make it the top of the range for interior wall coatings, required in contexts where the appearance of the walls embellishes and enhances the furniture.

\*Available in matt or satin finish

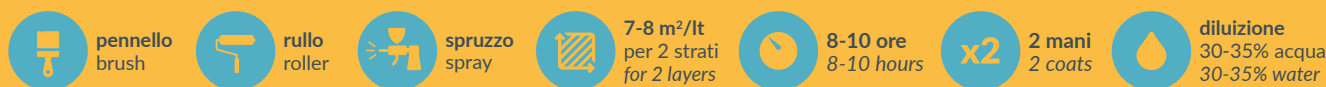

## GRANDI OPERE

Scansiona il Qr code e scopri i dettagli del prodotto  
Scan the QR code and discover the product details

Pittura superlavabile a base di leganti vinil-acrilici, altamente coprente, con ottimo punto di bianco, eccellente pennellabilità e distensione, piacevole aspetto opaco e vellutato. È caratterizzata da elevata resistenza agli agenti atmosferici, agli alcali, allo sfregamento e al lavaggio.

Super-washable emulsion paint based on vinyl-acrylic binders, highly covering, with excellent whiteness, brushability and levelling, and with a pleasant matt, velvety appearance. It is characterized by high resistance to alkalis, scrubbing and washing.

## LONDON

Scansiona il Qr code e scopri i dettagli del prodotto  
Scan the QR code and discover the product details

Pittura superlavabile a base di leganti vinil-acrilici ad alte prestazioni, caratterizzata da buon potere coprente, punto di bianco e resistenza al lavaggio. Adatta alla decorazione di interni, cui conferisce un piacevole aspetto opaco e vellutato unitamente ad una buona resistenza all'abrasione.

Super-washable emulsion paint based on high-performance vinyl-acrylic binders, characterized by good hiding power, whiteness and resistance to washing. Suitable for decorating interior surfaces, to which it imparts a pleasant matt velvety appearance together with good scrub resistance.
